

Take Two Bistro Table

neighbor

Description

Meet the Take Two Bistro Table, a compact outdoor table designed to do more than expected. It folds for flexibility, but once it's set, it's solid, stable, and ready to stay put.

A perforated steel surface keeps the look open and clean, while bent steel and angled legs give it a more defined, architectural presence. Finished in a durable powder coat and available in five bold colors.

Sized for smaller spaces, but built to handle everyday use.
