

Twofold Side Table

neighbor

Description

The Twofold Side Table is a fully aluminum outdoor accent table designed around a single clever idea: let material and mechanism do all the work. The result is sculptural, industrial, and a little unexpected. Sized for the sofa-side moments, with a surface for the small things you reach for first. Powder-coated finish, marine-grade hardware, and a color palette built to pair across the line. Built to stay outside year-round.
