

Underline Side Table

neighbor

Description

Powder-coated aluminum, top to bottom. A slim top floats above a tubular frame with softly rounded corners and capped legs. The lower shelf keeps the small things close—a phone, a book, sunglasses, a drink not currently in your hand. Sized to pull up alongside a lounge chair and built to stay outside through every season.

Materials & Specifications

- Powder-coated aluminum frame, tabletop, and lower shelf
- Adjustable nylon levelers
- Marine-grade hardware
