Description

The Workaround Ottoman connects to any module, pulls up anywhere, and does more than it lets on. Snap it onto any module to extend the configuration, or use it wherever an extra seat is needed. Square, backless, and built on the same low-profile aluminum frame as the rest of the collection, it works as extra seating, a footrest, or a surface for whatever needs a place to land. The same Sunbrella® fabric, the same quick-dry foam, the same construction throughout.
